

# Innovative PM components Headbox systems *PAMA head*

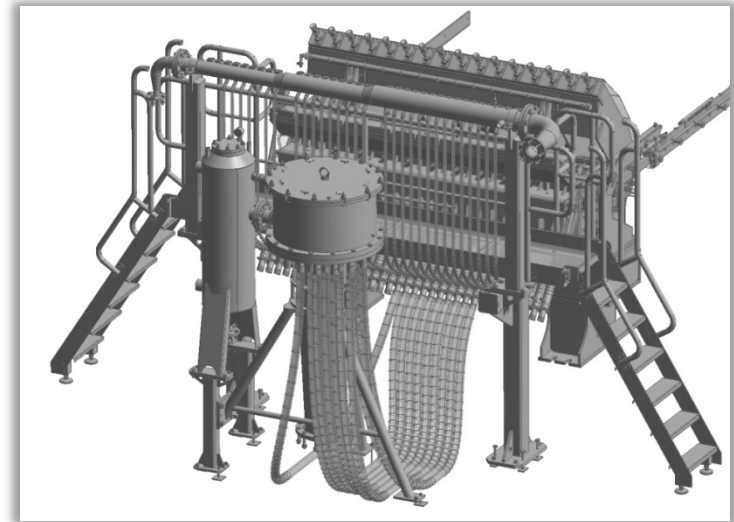

## **Manifold**

With pulsation attenuating  
Optionally with water dilution

## **Radial flow distributor**

With pulsation attenuating  
Optionally with water dilution

## **Stock distribution system**

# Benchmarking

## Advantages of PAMA component

- Water dilution system
- Automatic CD profile control
- Tank for pulsation attenuating
- Manifold
- Easy to clean
